Danfoss Ally™ Radiator Thermostat

Application

The Danfoss Ally™ Radiator Thermostat is a connected radiator thermostat for the residential use.

The Danfoss Ally[™] Radiator Thermostat is battery powered, compact and easy to operate with a manual hand wheel and single button. The Danfoss Ally[™] Radiator Thermostat is a Zigbee Certified Product, compatible with the Danfoss Ally[™] Gateway and with the third party certified systems using a Zigbee technology.

The Danfoss Ally™ Radiator Thermostat is easy to install, in just 30 seconds! The adapters are available for all thermostatic valves manufactured by Danfoss and most other radiator valve manufacturers.

Features:

- Programming and control via a ZigBee gateway
- Energy savings
- · Easy to install
- Easy to operate
- The Manual mode
- The Open-window function
- The PID Accurate temperature control
- The Adaptive learning
- Easy to read LCD display

- Display rotation -180 degrees
- Min./max. temp. range
- The Child lock function
- The Frost protection function
- The Valve exercise function
- Backlit display
- Battery life time up to 2 years
- The Visual warning of low battery
- Software upgradeable

Product	Language	Adapters (included)	Code No.
Danfoss Ally [™] Radiator Thermostat	EN, DE, DA, FR, IT, PL, CS	RA, M30	014G2420
Danfoss Ally™ Radiator Thermostat	EN, DE, DA, FR, IT, PL, CS	RA, M30, RAV, RAVAL	014G2460
Danfoss Ally™ Radiator Thermostat	IT	RA, M30, Caleffi, Giacomini	014G2461

Data Sheet

Danfoss Ally™ Radiator Thermostat

Specifications

Thermostat type	Programmable electronic radiator valve controller		
Recommended use	Residential (pollution degree 2)		
Actuator	Electromechanical		
Display	LCD with white backlight		
Software classification	A		
Control	PID		
Power supply	2 x 1.5 V alkaline AA batteries		
Power consumption	3 mW in standby, 1.2 W when active		
Trasmission Frequency / Power	2,4 GHz / < 40 mW		
Battery life	Up to 2 years		
Low battery signal	Battery icon will flash in display.		
Ambient temperature range	0 to 40 °C		
Transportation temperature range	-20 to 65 °C		
Maximum water temperature	90 °C		
Temperature setting range	5 to 35 °C		
Clock accuracy	+/- 10 min/year		
Spindle movement	Linear, up to 4.5 mm, max. 2 mm on valve (1 mm/s)		
Noise level	<30 dBA		
Safety classification	Type 1		
Open-window function	Activated at temperature decrease or by ZigBee command		
Weight (incl. batteries)	198 g (with RA adapter)		
IP class	20 (not to be used in hazardous installations or in places where it will be exposed to water)		
Integrations*	Partner API, Google Assistant, Amazon Alexa		
Approvals, markings etc.	CE Zigbee		

* Requires Danfoss Ally™ Gateway

Danfoss Ally™ Radiator Thermostat

Accessories

Adapter type	Code no.	Adapter	Valve
For Danfoss RA valves	014G0251		
For valves M30 x 1,5 (K)	014G0252		
For Danfoss RAV valves	014G0250		
For Danfoss RAVL valves	01400250		
For Danfoss RTD valves	014G0253		
For M28 valves: - MMA - Herz - Comap	014G0264		
For Orkli valves	014G0257		
For Caleffi and Giacomini valves	014G0263		
(Both adaptors supplied)			

antos

- **Mechanical Installation**
- 1. Start by mounting the appropriate adapter. Identify the needed adapter from the table on pg 3.
- 2. Insert the batteries, then mount the thermostat onto the adapter by turning it until you hear a click.
- 3. Press and hold the button for 3 seconds. The Danfoss Ally[™] Radiator Thermostat is now mounted and will display the current temperature.

Measuring the room temperature

The Danfoss Ally™ Radiator Thermostat is measuring the temperature with multiple built-in sensors to ensure accurate control. Based on these readings the room temperature is calculated for an area approx. 20 cm in front of the display. This allows the Danfoss Ally™ Radiator Thermostat to control the actual room temperature very accurately.

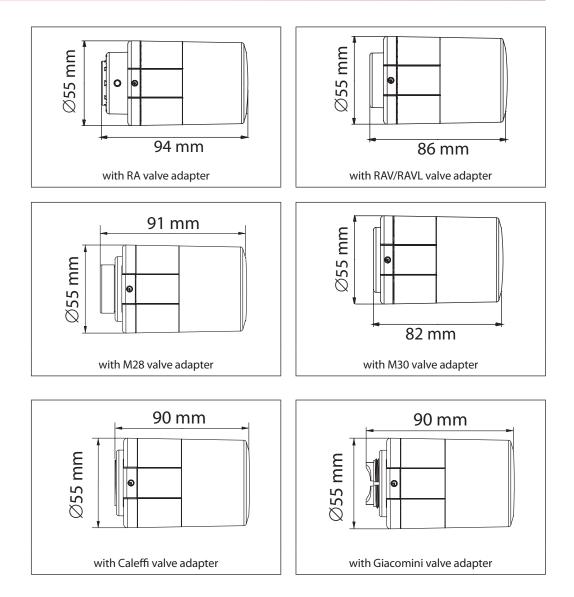

Be aware that sources of cold or heat, e.g. fireplace, direct sun or draft, might affect the function of the Danfoss Ally[™] Radiator Thermostat.

Note! The displayed temperature is always the set temperature, not the actual room temperature.
